PRESIDENT'S REPORT

Happy New Year Fellow Members. We had a great turnout last year for the 2006 Annual Holiday Luncheon. It was a great to see everyone and celebrate the Holidays with all of our friends. Congratulations to all of our drawing prize winners. Our 2007 luncheon is scheduled for December 5th. You may want to mark your calendar in order to save the date. Watch for more details later in the year as we start our planning.

Your Association Board of Directors has been planning for an exciting year in 2007. Already scheduled and in the planning are trips to the Ronald Reagan Library and Museum in June – a must see if you have not yet visited the library. The Palm Springs Follies in April and an exciting trip to see the Pageant of the Masters at the end of August are two other trips. Tickets are limited for each event so call or send in your reservations early in order to insure a seat.

SDG&E has a number of activities planned during the year in support of many community non-profit organizations. If you are interested in volunteering to help, please call and let us know. We will forward your name and contact information onto the company for you. Also if you are interested in joining the Alumni Board, one of our committees or assisting with one of our planned events, please notify one of your board members. Additionally if you have recommendations for events you would like to see, please let us know.

Check our web site at "sdgealumniassoc.org" for updated information and contact numbers. Thank you.

FROM THE EDITOR

We had over 330 attend our Holiday Luncheon in December. As Chairperson this year, my job was made easier by the great group of volunteers that work hard to provide you with an enjoyable afternoon.

Retirees were seen catching up on the activities of friends and swapping stories of their time at SDG&E.

Dave Geier, Vice President Electric Transmission and Distribution gave a power point presentation concerning the proposed Sunrise Powerlink.

We learned why this electric transmission line is needed, what outstanding issues remain, estimated costs and length of time to recapture the cost of the project. Everyone became much more knowledgeable of SDG&E's efforts and the importance of this project.

As you will see in this issue, we have already planned several trips for this year. Check them out and we hope you can join us.
